

COMPANY PROFILE | 2026

Complete interiors. Built around wood.

Wood interiors, custom furniture and complete furnishing - delivered under one coordinated Mosaic vision.

OUR DIRECTION

More than joinery. A complete interior.

Mosaic Carpentry Works completes interiors around a strong custom-wood foundation. We bring fitted joinery, furniture, finishes and decorative elements together so every room feels intentional, connected and ready to live in.

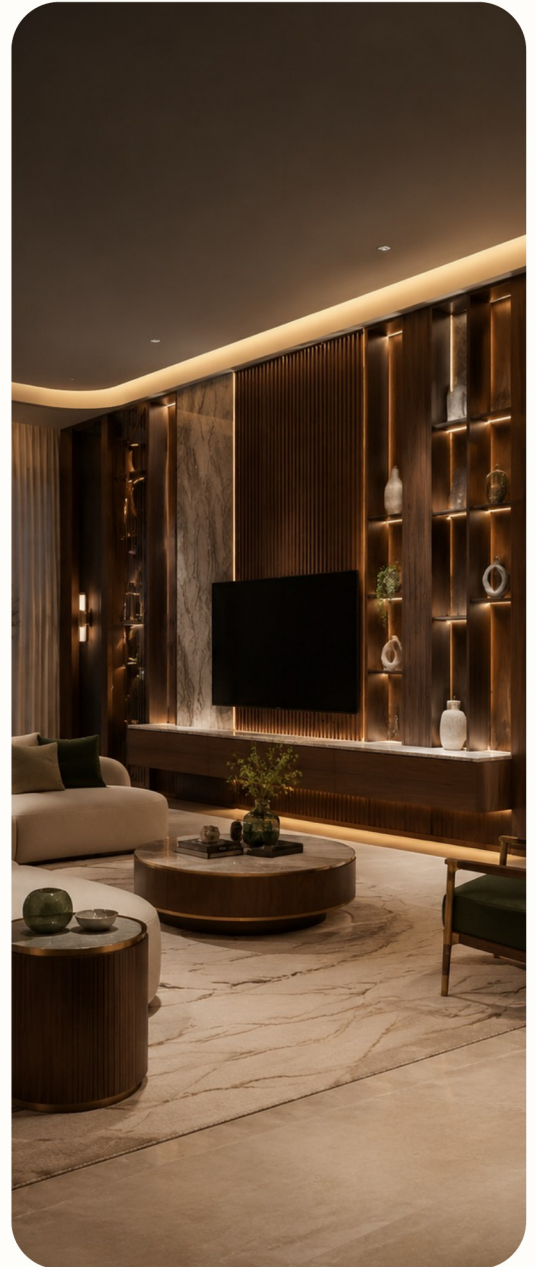

Our role begins where the finished shell ends.

Once flooring, gypsum work and painting are complete, Mosaic can deliver the remaining interior elements as one coordinated scope.
